ECE OPEN HOUSE

Douglas College Early Childhood Education students are holding an Open House at the New Westminster campus, 8th Ave. & McBride, Sunday, May 6, 10 a.m. to 4 p.m.

Purpose of the event, in celebration of the International Year of the Child, is to acquaint the public with all aspects of child development and education in the 0-5 year bracket.

The theme will be the development of the pre-school child, which will be illustrated in booths displaying such activities as music and movement, art, literature and language, science and social studies.

Other displays will feature the professional quality of the ECE program, the importance of children's play, and the International Year of the Child.

The day's activities will also include films and guest speakers on subjects related to children's needs and rights.

Supervised facilities will be available for 3-6 year olds while their parents visit the open house.

College administrators and ECE faculty will be greeting guests who are expected to include college council and city council members, and other dignitaries from the communities the college serves - Surrey, Richmond, Coquitlam, Maple Ridge, Langley and New Westminster.

Everyone is welcome to either drop in for a few minutes or to spend as long as possible. Light refreshments will be served.

Contact: Silvia McFadyen, ECE Supervisor, 521-4851 or Helen Grodeland, Communications Instructor, Office 521- 4851 or Res. 526-7664.

I.B.M. TYPING ELEMENTS

In the past we have advised the clerical support staff to file broken I.B.M. typing elements in the round basket as it was not possible to repair them. Today we received a letter from a firm in Ontario that does repair these elements. With the exception of damaged letters, almost all defects can be rectified. The cost of repair is \$12.00 each and elements must be sent in minimum lots of three.

Would all clerical staff in future forward their broken elements to the Purchasing Department, complete with your name and campus location. As we accumulate the minimum lot quantities we will forward them to the firm in Ontario for repair. Please keep in mind that due to the minimum lot requirements and the geographical location of the firm you should not expect the return of your element within a short period of time. If you have an urgent requirement for that particular element please complete a requisition for a new element.

Thank you for your help.
